Ground Control Instructor for Law Enforcement

This course focuses on ground control techniques that will allow your officers to control a suspect until backup arrives. We also teach team control techniques that will exhaust the suspect for handcuffing. The techniques learned in this course will utilize body weight and compression learned through Brazilian Jiu-Jitsu. We also focus on arm locks and control holds that will afford you a better opportunity to keep the suspect under control. We teach our award-winning teaching methods that allows you to become a better instructor. The majority of officer involved struggles end up on the ground, which means learning to control a suspect is important to every officer in the field. You won't be disappointed after attending this course.
