16 credit hours

This 2-day (16 hour) course was developed specifically for law enforcement officers, and the primary purpose of this training is to educate officers on the tactical folder as a tool and as a weapon for defense. The training will also cover the fundamentals necessary for surviving an edged weapon attack and for using a knife in a deadly force encounter to stop an immediate lethal threat when no other force options are available. Due to the depth of information regarding knives and their use, this course will focus mainly on tactical folders for law enforcement EDC. You won't find another course currently on the market that offers this kind of training to law enforcement by law enforcement instructors.
