

# BLUE SHIELD TACTICAL SYSTEMS

**BLUE SHIELD  
TACTICAL SYSTEMS**

*The first choice in tactical training for law enforcement!*

We're a law enforcement instructor company that covers several different instructor programs that meet the needs of any agency or trainer. We ourselves are law enforcement officers, and understand the difficulty officers experience in the field during confrontations. Our courses focus on everything from standing and ground defense, to weapon retention and disarmament. These courses not only have great reviews, but come with free courtroom testimony and free instructor support. The programs are based upon simple, but yet proven techniques that actually work in the field. We also teach our award winning teaching methods during our courses that will improve you as an instructor. The techniques we teach are based upon Brazilian Jiu-Jitsu, Krav Maga, and other various martial arts. We also feature our Use of Force from the Street to the Courtroom course that is a classroom only course that is based on explaining use of force and details missed in most reports. This course will definitely help the average officer in documenting and understanding use of force, and reduce the chance of civil or criminal litigation. You won't be disappointed in any of our training courses you attend.
