

BLUE SHIELD TACTICAL

HOMICIDE INVESTIGATIONS

\$375

16 HOURS

McKinney, TX Oct. 9th – 10th 2023

Eligible for 16-hours TCOLE

Altoona, IA Dec. 4th - 5th, 2023

16-hours credit

This two-day 16-hour investigative program delves into numerous investigative topics that face most law enforcement agencies. The benefit of having a well-trained investigative team will lead to an increased probability of success for your agency based on the tools learned during this program. The modern investigative techniques and concepts taught within this course will benefit everyone from the seasoned detective to the front-line patrol officer. Below is a list of topics that will be covered in the program.

Course Content

Crime scene tools for suspicious deaths and homicides
Scene responsibility to include scene security and canvassing
Case reviews of several high-profile events
Victimology
Identifying defensive and offensive injuries
Controlling a primary and secondary crime scene
DNA evidence review and control
Identifying potential homicides that may appear to be a suicide
